The Mid-America Regional Council and the Unified Government of Kansas City, Kansas and Wyandotte County are working together on a project **to revitalize State Avenue into a more vibrant, green, and connected corridor.**

We want to work with you to:

- Identify criteria for new environmentally-friendly development that promotes new jobs, affordable housing, improved mobility, and healthy neighborhoods
- Explore how “green” development can be financially feasible
- Identify unique assets along State Avenue and opportunities to enhance community vitality

Please help us in this effort by attending and encouraging your family and friends to do so as well! We want to hear your ideas about how to make State Avenue a more vibrant and livable part of the community.
